Meet the Microsoft Surface Pro 9 CAC/PIV Solution

Equipped with an integrated military-grade CAC/PIV Smart Card Reader and rugged case, the Surface Pro 9 is a purpose-built solution that is TAA and FIPS 201 compliant, power pass-through option (up to 60W), a kickstand opening, cable lock compatibility, and data protection. It allows full access to I/O ports including Thunderbolt 4 and USB-C 4.0 ports. The most powerful Surface Pro is flexible, with tablet portability, laptop performance, and all-day battery life to keep you connected and always protected, while on the move.

Flexibility Employees Need

With the innovative form factor, hold your device confidently while on the move without the requirement of a hand strap. Write, code, or edit in comfort with mechanical backlit keys, optimum key spacing for fast, accurate typing, and an individually calibrated virtually edge-to-edge high-resolution 13" PixelSense™ touch display.

Service and Support

Leveraging modular serviceability, the device design compartmentalizes pieces of the underlying system componentry allowing for quicker return to service times. A base 3-year Next Business Day onsite extended hardware service w/Keep Your Hard Drive through Microsoft's service partner ITG is included. Optional uplifts to 4yr and 5yr service available, and options for accidental damage protection.

Deploy, manage, and stay secure anywhere

Secured-core PCs deliver the highest level of Windows 11 protection for government institutions handling the most sensitive data. Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, Surface Enterprise Management Mode (SEMM) provides a scalable deployable utility to meet this need.

TAA Compliant Smart Card Reader with Read Only Memory ROM

Ready for use in Government institutions and other organizations that require CAC. ISO/IEC 7816 certified for CAC, PIV, and Smart Cards A, B, C (5V, 3V, 1.8V). ROM means data is never stored, so it can't be compromised.

*Sold separately.

[1]System software and updates use significant storage space. Available storage is subject to change based on system software and updates and apps usage. 1 GB = 1 billion bytes. 1 TB = 1,000 GB. See Surface Storage for more details.

[2]Battery life varies significantly based on device configuration, usage, network and feature configuration, signal strength, settings and other factors. See aka.ms/SurfaceBatteryPerformance for details.

[3]Requires Doby Vision® encoded content and video.

[4]Requires Dolby Atmos® encoded content and video.

[5]Requires license or subscription to activate and use.

[6]Activation required. If your device is managed by your organization's IT department, contact your IT administrator for activation. After 30 days, you will be charged the applicable monthly or annual subscription fee. Credit card required. Cancel any time to stop future charges. See https://aka.ms/m365businesstrialinfo.

[7]Colors available on selected models only. Available colors, sizes, finishes, and processors may vary by store, market, and configuration.

[8]Microsoft's Limited Warranty is in addition to your consumer law rights.

[9]Weight not including Surface Pro Signature Keyboard or Surface Pro Keyboard.

[10]Tactile signals with Surface Slim Pen 2 can be experienced on some applications on Surface Pro 8 running Windows 11. Surface Slim Pen 2 sold separately.

[11]Without prejudice to any legal (statutory) rights to which you may be entitled under your local law, Microsoft Limited Hardware Warranty covers your device for one year from the date of original purchase from Microsoft or an authorized reseller. Restrictions apply. Please refer to Microsoft Limited Hardware Warranty & Agreement.

Microsoft Surface Pro 9 CAC Reader Cases
Technical Specifications

UAG Rugged Smart Card (CAC/PV/TAA) Reader Case
